Coyote

POP-UP

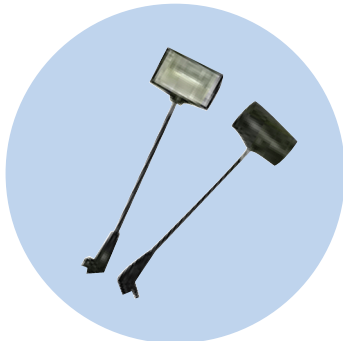

- Perfect for large format graphic panels
- Many kits and additional designs available
- 7 new designer colours available in ribbed fabric at no extra charge

The **Coyote** popup display system combines strength and reliability with style and ease of use. One of the most portable tradeshow and display solutions available.

Compared with complicated "snap in" channel bars and delicate locking/locating systems, the **Coyote** popup display system uses state of the art "Rare Earth Neo Magnets" on both its channel bars and locking /location systems. These make it very quick and simple to erect and take down, with practically no "easy to break" parts.

Full display systems are offered in a wide choice of configurations from basic tabletop kits to full 20' long displays. **Coyote** systems may be made with seamless graphic mural panels or versatile "Velcro friendly" fabric panels.

200 watt halogens available.
