

White Prints:

Quality and speed on-demand

Are you tired of running back and forth to the office for your large-scale reproductions? Allegra understands that time is money and that drawings are often required on site without delay. Documents such as architectural drawings, construction drawings, landscape designs, construction site plans and other pieces can now be printed at Allegra from PDF or PLOT files, or scanned and converted to digital files for archiving and future use.

Our large-scale reproduction service offers the quality and speed you expect, with crisp and clean reproduction of files up to 36" wide. Line widths, shadings, cross hatches, solid fills and other drawing symbols are accurately reproduced with the highest quality. We can print directly from an electronic file or scan your original documents, convert them to digital files, and then create a print as precise as your original.

- **Allegra. Your one-stop source for large-scale documents.**

● Crisp, clean reproduction up to 36"

A fast and reliable service for:

- architects
- builders
- landscape designers
- interior designers
- land developers
- infrastructure maintenance crews
- drafting companies
